**KORPOL®** International  
is a registered trademark in Australia

*Let us  
take a load  
off your mind!*

*Sea, Air and Intermodal Freight  
into Central and Eastern Europe*

**KORPOL®** International, Business Division, provides B2B (Business-to-Business) freight forwarding services to Central and Eastern Europe, in particular:

- Poland
- Ukraine
- Czech and Slovak Republics
- Latvia
- Lithuania
- Byelorussia
- Estonia

We offer highly competitive rates for shipment of our clients goods by sea freight in a sealed dry container, while more urgent cargo is quickly transported by air.

Intermodal shipping, including rail and/or road transport, to the final destination can also be easily arranged.

**KORPOL®** International specialise in lower volume (LCL – less than container) loads, which is of great benefit to exporters who require smaller cargo moved to these countries.

However, **KORPOL®** International can also assist in moving full container loads (FCL), if required.

**KORPOL®** International's aim is to meet the customers' individual needs. We are flexible enough to provide personalised assistance without compromising the professionalism of our service.

This may include free pick-up at a pre-arranged time, as well as the short-term storage of a customer's goods until the consignment is ready for shipment, and customs clearance at the port of destination, provided at business partner premises overseas.

The security, efficiency and reliability of our service is unmatched by our competitors.

Consequently, since the establishment of **KORPOL®** International in 2001, our rapid growth is largely a result of our customers' referrals, or 'word of mouth'.

**KORPOL®** International operates from the Head Office located in Sydney, Australia, and has agents in Brisbane, Canberra, Melbourne, Newcastle, Perth and Wollongong.

Naturally, **KORPOL®** International will also arrange pick-ups from other areas within Australia.

Talk to us today about your individual freight requirements to Central and Eastern Europe and 'let us take a load off your mind'.
